

A collection of various Rocket batteries, including AGM, Gel, and Flooded types, arranged in two groups. The batteries are dark blue with yellow and white labels. The labels feature the 'ROCKET' logo and technical specifications. The batteries are shown from different angles, highlighting their rectangular shape and terminal locations.

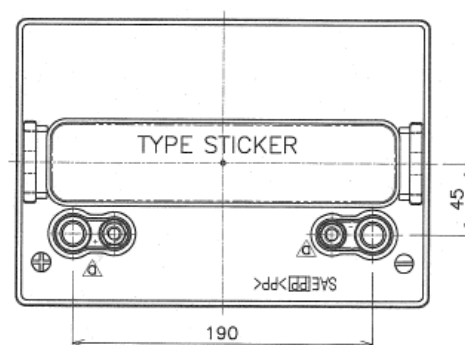

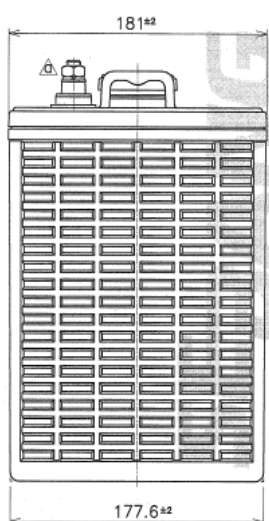

Color : Dark Blue

BCI	Model	Voltage (V)	Dimension (mm)				Quantity(Liters)	Weight(kg)
			Length	Width	Height	Total Height	Electrolyte	Battery
GC8	L-890	8	262	181	245	278	5.6	31.2

Type	Capacity Minutes		Capacity Amp-Hours(AH)	
	@25 Amps	@56 Amps	@5Hr	@20Hr
L-890	340	132	155	190

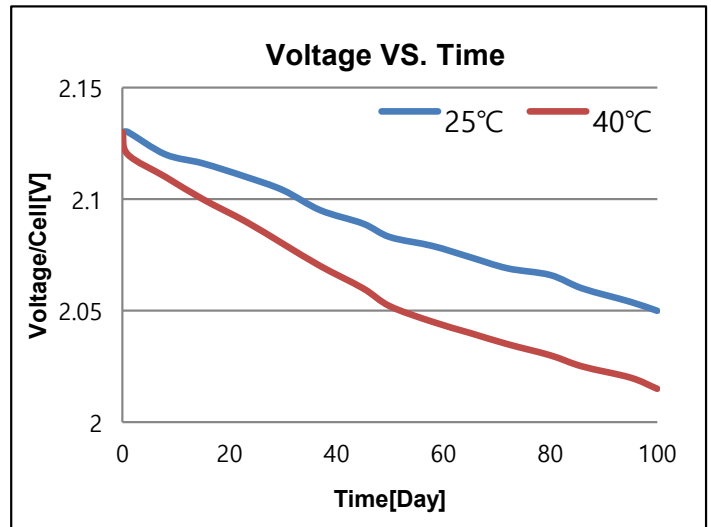

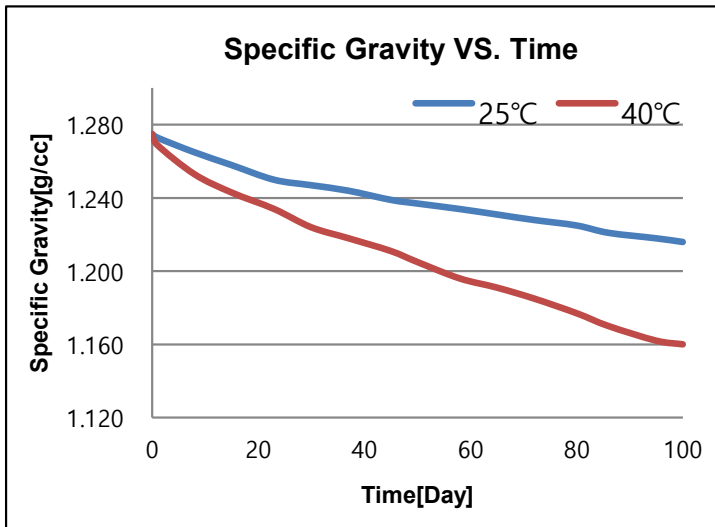

WNT	Wing Nut Terminal
	Terminal Height mm(Inches)
	33(1.29)
	Torque Value kgf*cm(Nm)
	110–120(10.8-11.8)
	Bolt 5/16"

EUT	Embedded Universal Terminal
	Terminal Height mm(Inches) 27.4(1.08) Torque Value kgf*cm (Nm) 110-120(10.8-11.8)

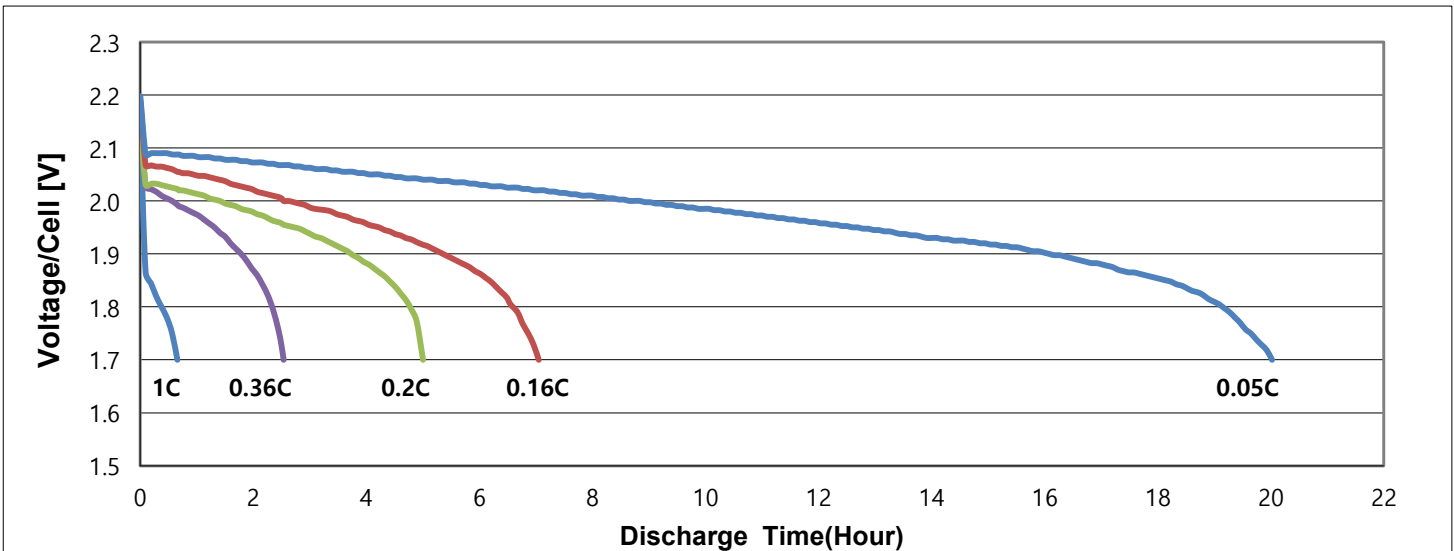

Data Sheet (L-890)

Self Discharge Data

Capacity By Discharge Current

Cycle Service Life : BCIS-06 [DOD 100% _ 27°C]
